## PROFESSIONAL SUMMARY

I am a Software Developer with 2+ years of hands-on experience working on a real-time multiplatform project, I have contributed to building scalable APIs, integrating APIs and creating responsive user interfaces. Familiar with Git, cloud services, I am eager to contribute to impactful projects and continue growing as a developer.

## EXPERIENCE

### Backend Developer

July 2025 - present

BterAi

Delhi

- Working with the backend development team on the company's core product, contributing to feature implementation, deployment workflows, and system scalability, while also developing and maintaining cross-platform mobile applications using Flutter.

### Full Stack Developer

Dec 2023 - Jun 2025

PSRA Group

Noida

- Designed and maintained RESTful APIs for core business modules, focusing on reliability, performance, and secure data handling.
- Managed backend development and deployment, including server configuration, CI/CD setup, and database integration for production environments.

## PROJECTS/Freelancing

### SmartCampus | Node.js, React, AWS S3, MongoDB, Razorpay

- Developed a role-based school management platform with modules for admission, attendance, grading, and fee management. Automated fee scheduling with digital receipts, integrated online payments, and smart notifications, reducing manual work and improving transparency.

### Full Stack Travel Booking Platform | Express.Js, React.Js, Firebase, Google Gemini API, MongoDB, SMTP

- Developed a full-stack travel booking platform supporting **bus, flight, cab, and hotel reservations** with secure authentication and scalable backend using Express.js and MongoDB.
- Integrated **AI-powered trip planner** (Google Gemini API) and designed user-centric UI/UX in **Figma + React.js**, enhancing trip planning experience and customer satisfaction.

## TECHNICAL SKILLS AND INTERESTS

**Languages:** Java , JavaScript , MySQL

**Development Stack:** Express.js, React.js, Flutter , MoongoDB, RESTful APIs

**Cloud & DevOps:** Linux, Git/GitHub, Bit Bucket, AWS, EC2, Docker, Jenkins, Nginx, MongoDB Atlas

**Developer Tools:** VS Code , Huly, Jira, Postman

**Coursework:** DSA , OOPS , DBMS , Operating System

## ACHIEVEMENTS & RESPONSIBILITY

- **BrainQuest Hackathon 2.0:** Secured first place in a solo competitive hackathon organized by BIMTECH, Greater Noida.
- **College Topper (XII Board Exam, 2019)**
- **Solved 300+ Data Structures and Algorithms (DSA) problems on LeetCode and GeeksforGeeks (GFG)**

## EDUCATION

### I.T.S Engineering College Gr. Noida

2020-2024

B.Tech in ECE — Percentage: 67%

AKTU Lucknow

### R.S. College Muzaffarpur

2019

12th with PCM — Percentage: 80%
